## RAILWAY OFFICIALS HERE TO VIEW STOREHOUSE REMAINS

C. E. Conners, Assistant to Vice-President Hodges and Storekeeper Scully in Albuquerque Today.

### WILL DEMONSTRATE SHOP PROTECTION

C. E. Conners, assistant to Vice President Hodges of the Santa Fe and in charge of the stores department, and General Storekeeper Thomas Scully of Topeka, arrived in Albuquerque this morning from El Paso, where they have been on an inspection trip called back by the fire Sunday evening which destroyed the old storehouse.

Plans for the new storehouse, a part of the new shop plant, are complete and it is expected that construction of the new building will begin at once.

Mr. Conners and Mr. Scully with other officials of the road here will be present at the fire department's demonstration at the office building on South Second street this afternoon.

### FENCE TO ENCLOSE

ALL SANTA FE PROPERTY. Announcement has been made in connection with the erection of new shops and the general modernization of the Santa Fe yard, that the entire grounds are to be enclosed by a fence. Lumber for the fence has already been received.

In addition to the fence, the railroad company will run a viaduct clear across the yard, near Cromwell avenue, for the convenience of the men living in the Highlands. The fence will run from the lower end of the yards clear up to the station.

### TO DEMONSTRATE FIRE

PROTECTION AT SHOPS. As an aftermath of the destructive fire at the Santa Fe storehouse Sunday afternoon, which is said to have spread because of ineffective water pressure at the company's hydrant in the railroad yard, a test of the pressure in the city main near the proposed new group of shop buildings will be made this afternoon.

Arrangements were made at the council meeting last night to have all the councilmen and Santa Fe officers witness a test of the main at Atlantic avenue and Second street. Chief Klein will superintend the test.

The railroad officials want to make sure that there is water enough to maintain two streams at high pressure before they begin work on the new buildings.

Swedish Parliament Dissolved. Stockholm, Sweden, March 2.—A royal decree dissolving the Swedish parliament was read today in both chambers.

Piles Cured in 6 to 14 Days. Druggists refund money if PAXO OINTMENT fails to cure itching, blind, bleeding or protruding piles. First application gives relief. 50c.

## NEW STOREHOUSE TO BE MODEL OF EFFICIENCY

General Storekeeper Conners Tells Something of Splendid New Building for Which Plans are Ready.

### WILL BE FIRST OF THE NEW SHOPS PLANT

When the proposed new storehouse of the Santa Fe in this city is completed Albuquerque will be able to boast of the most modern structure of its kind in the country. It will have every improvement that is known in storekeepers and designers of such buildings. And it will be of the largest type that the Santa Fe constructs.

General Storekeeper C. E. Conners, of the Santa Fe, who is in the city in connection with preparation of the plans for the new shops, spoke today of the standard at which the Santa Fe was going to aim when it puts up the new storehouse.

It will be the first of the new shop buildings erected. Mr. Conners said that Sunday's fire, which destroyed the old storehouse, will not serve to hurry matters particularly. The local stores are now housed in the old tin-shop, and the storekeeper will do business there without undue inconvenience until he has the model new building to make him happy.

The new structure is to be 60 by 212 feet, the largest type, as already noted, on the Santa Fe system. The old storehouse could be tucked away in it. It will have every convenience possible for handling all manner of supplies. Mr. Conners has looked at the newest and biggest storehouses on other systems in an effort to learn just what to put in the proposed structure to make it the ne plus ultra of its kind.

"It will be the last word in storehouses," said Mr. Conners today with a note of enthusiasm in his tone. "It ought to be the standard for fifteen or twenty years after it is erected."

Actual work on the construction of the storehouse, which will be the start of the erection of the new shop group, will probably be commenced shortly after July 1, Mr. Conners said. So far the actual plans for the buildings have not been completed. Draftsmen are now at work on the plans for the new storehouse. All the plans will have to be submitted to one of the Santa Fe vice presidents, and after his approval is obtained there will remain the consideration of contracts for the construction.

Mr. Conners, in speaking of Sunday's fire, put the loss at \$35,000 at least and said it might be as high as \$40,000. Some of the supplies in the old building were salvaged and such as were destroyed by rush shipments from other storehouses.

### CATTLE BARONS OF SOUTHWEST MEET IN OKLAHOMA CITY

Men Through Whose Hands Pass Millions of Cattle Annually Gather in Convention.

(By Leased Wire to Evening Herald.) Oklahoma City, Okla., March 2.—Hundreds of cattlemen from all sections of the west began arriving here today for the convention of the Panhandle Southwestern Stockmen's association, which will continue three days. The association has a membership of \$71. It is estimated its members handle about 1,000,000 head of cattle a year.

### HEPPNER WOMAN FOUND NOT GUILTY

(By Leased Wire to Evening Herald.) Chicago, March 2.—Miss Allen Heppner, accused of perjury in connection with the Henning-Punk alienation suit, was found not guilty by a jury today before Judge McDonald. Miss Heppner was a witness in the suit of John C. Henning, a bellboy, against Clarence S. Punk, former general manager of the International Harvester company for alleged alienation of the affections of Mrs. Henning. The Henning suit fell through and resulted in a vindication of Mr. Punk. Later conspiracy charges were filed against some of the participants in the alienation suit and Daniel Donohue, attorney for Henning, was found guilty of conspiring to defame Mr. Punk.

Miss Heppner had said that she saw Mr. Punk and Mrs. Henning in a Chicago hotel. In the conspiracy trial Mrs. Henning testified that she had never met Mr. Punk.

### GUILTY OF SENDING OBSCENE MATTER THROUGH MAILS

(By Leased Wire to Evening Herald.) Cincinnati, March 2.—The United States circuit court of appeals today affirmed the decision of the United States district court for the Western district of Michigan in the case of the United States against the Times Publishing company, John Nummivouri, the business manager and John Salmi, the editor. They published a miner's newspaper, the Latona, at Hancock, Mich., the scene of the present bitter strike of the copper miners, and it was alleged they printed an obscene cartoon.

The lower court found them guilty, fined the company \$1,000 and the two men \$100 each and gave them a jail sentence of 60 days. The upper court affirmed this decision, holding that there was no error prejudicial to the defendants and that they had been fairly tried.

The charge was that of sending obscene literature through the mails.

## MORE PROTECTION AGAINST FIRE IS PROVIDED BY COUNCIL

New \$9,000 Motor Combination Engine Ordered Delivered at Once at Last Night's Meeting.

### CITY MARKET AGAIN PROPOSED BY MAYOR

Clean Up Week Finds members of Council who Think Property Owners Should do Own Work.

### BIG ELECTRIC SIGN FOR LOCAL STATION

Electric Light Company Ready to Spend Two or Three Thousand Dollars if City will Pay for Current.

Increased protection against fire was assured the city by action of the council last night, when the purchase of another powerful automobile engine was voted.

The apparatus will cost \$9,000, and will be furnished by the American-La France company, whose bid was formally accepted in the resolution passed last night. The new engine will make available two powerful, modern machines for battling with fires that threaten to become serious.

It has not been decided whether to send the new engine to the Highlands station, where a horse-drawn apparatus is now stationed, or put the new machine in the Central station and transfer the one now in the downtown station to the Highlands.

Proposes City Market. Mayor Sellers broached the question of establishing a city market at last night's meeting. D. G. Grant, he said, had offered to permit the use of lots at Gold avenue and Third streets as a market place. The mayor thought it would be a good idea to establish a market of the sort, to be conducted under municipal supervision. The plan, he said, would provide an excellent opportunity for truck growers and poultry raisers to make quick sales, and afford convenient means for housewives to secure the ranch products.

Councilmen Clarke, Kelly and Isherwood were appointed a committee to investigate the market question and report at the next meeting of the council.

### Clean-Up Week.

Mayor Sellers appointed Councilmen Conner, Thomas and City Attorney John C. Lewis a committee to make arrangements for a "clean-up week." It was suggested that it might be better to arrange for two weeks of clean-up, and the mayor further suggested an ordinance providing for municipal action on untidy yards if the owners failed to clean them. The committee will consider that among the other possibilities of the clean-up campaign, and report at the next meeting.

### The Big Electric Welcome.

The mayor announced that the lighting company had made a proposition to erect an ornamental sign across Central avenue, if the city would contract to pay for the current used in it. The sign would cost, the mayor said, about \$2,000, and the city would be called on to pay about \$25 a month to keep it going. The mayor suggested "Albuquerque for Business and Culture," as a good slogan on the sign. No action was taken on the proposition.

In the interest of uniform improvement, it is likely that the parking of the sidewalks in Robinson park will be done under the direction of the park commission. In discussing the subject last night, the mayor said it would mean a more attractive effect if the work were controlled by the commission.

### Want More Speed for Trains.

Councilman Isherwood called the council's attention to the fact that the engineers of the trains were running so slowly through the city that small boys were tempted to steal rides. The councilman said it was understood that the city ordinance required a speed of no more than six miles, and he thought the trains should be permitted to make at least fifteen miles an hour through the city in order to keep the boys from endangering themselves hopping on and off the cars. The mayor looked up the ordinance and found that it required a six-mile speed only north of Iron avenue and south of Tijeras avenue, and that it didn't need any amendment. The attention of trainmen will be called to the fact that they are not required to stick to a snail's pace in crossing the city.

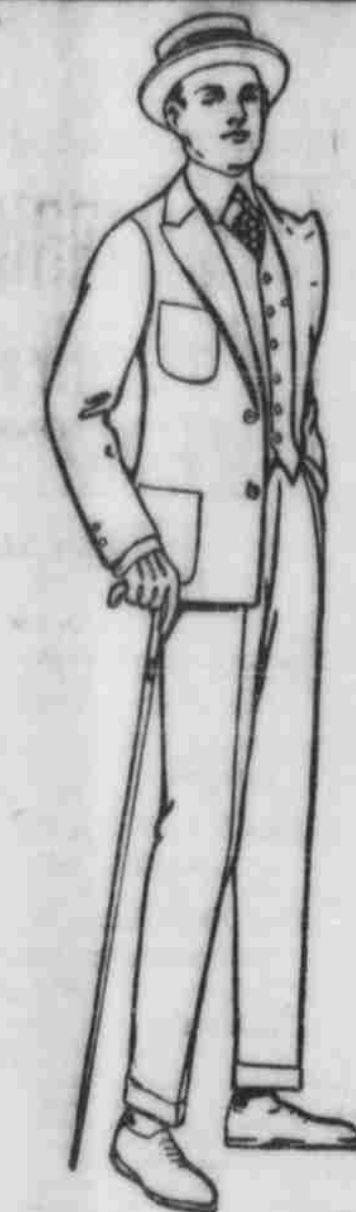

### Officers' Reports.

City Treasurer W. A. Kleke reported the receipt of \$12,750 from County Treasurer Mandell yesterday. There was a balance of \$11,971 on hand February 1, and \$1,104 on February 28.

City Clerk Roehl reported the collection of \$1,125 to licenses and occupation tax during the month.

Chief Klein reported the net first loss for February to be \$5. A total of \$929 was lost, on which \$915 insurance was paid. The collection of \$400 in fines was reported by Police Chief Thomas McMillen. Arrests during the month numbered 141.

A petition was filed by Mrs. H. W. D. Bryan asking the city to open a street through lots owned by the Bryan estate in the southern part of

## NEW MEXICO BOY RIGHT HAND MAN TO VILLA

John Roberts, Well Known as Former Clerk in Governor's Office Close to Bandit Chief

### ARMJO SAYS BENTON CASE WAS MURDER

Santa Fe Man Says Place for All American Citizens is on the North Side of the International Boundary.

"The place for every American citizen who cares a farthing for his life is on the north side of the international border. He has no business in Mexico."

This was the emphatic statement of George W. Armijo, former tough rider and well known politician who was in Albuquerque this morning on his way to his home in Santa Fe after a visit to Chihuahua, where he has business interests.

"I did not get to Chihuahua city," said Mr. Armijo. "I was afraid to go. If you want the truth, no American is safe south of the boundary now and for that matter no foreigner. One side is as bad as another. They are all bandits and the foreigner with a dollar in his pocket is liable to assassination at any time. I do not mean by this that all the people south of the border are bandits by any means; but the bandits are running things just now. Lawlessness is supreme and there is no chance for the foreigner."

"I had some business in Chihuahua which I hoped to be able to attend to but after some time in Juarez I determined the better part of valor was to come home. The Benton and Bauch cases are quite similar. As nearly as I could learn. Both men were murdered by Villa or under his direct orders. Benton, I was told in El Paso, by first-hand witnesses, had said before he went across the border that he was going to show Villa where he was going. This being so, he got what he went after. But the general feeling is that the man was troublesome and that Villa killed him as preventing the least bother. Bauch undoubtedly

ly has been killed by Villa's orders.

"John Roberts, who was clerk to Governor George Curry while Curry was executive in New Mexico, is in Chihuahua and is, I am told, Villa's right-hand man, being a capable secretary. Roberts has found that he is very useful to the chief and I am told that Villa keeps him close by him at all times."

"I do not know how Roberts likes this close proximity to sudden death. So far as I am concerned he is welcome to the job and the honors."

### AN OPPORTUNITY OF A LIFETIME FOR ALBUQUERQUE

Dan Crawford, "The Man Who Thinks Black" to Appear in Lead Avenue Church March 17th.

The people of Albuquerque will have the privilege of a life time on March the 17th at the Lead Avenue Methodist church in hearing the unique missionary, the African explorer, the successor of David Livingstone, the first white man to find the banyan tree under which the heart of the great explorer was buried.

He was born and reared in Scotland. Early in his life he came in contact with that peerless preacher and thinker, Henry Drummond, and this association, perhaps more than any other one influence, caused him to give himself to the uplift of darkest Africa. He has been in Africa for 22 years. He is now on a furlough; he has spent some time in his native land and is now touring this country and is on his way back to his beloved Africa not expecting to ever return to civilization again. He will spend the rest of his days thinking his way through the tall grass, "winding black, but setting white and uplifting that black benighted people."

He employs unique and original methods in his work. He has translated the New Testament, the Psalms and the Gospels into the language of the natives. He spends much of his time in opening up roads and building villages on sanitary principles.

Those who have heard him, all say that it is a privilege and a treat to hear him, as he is a speaker of marked ability and holds his audience spellbound from beginning to end with his thrilling experiences.

### REGULAR GOOD OLD ARMY TIME TONIGHT

Adjutant General Herring to Be Guest of Honor at Company G, Smoker in the Armory.

A regular good old Army time, it is the way Captain W. P. Himes of company G, N. M. N. G., describes the smoker which the company is to give for Adjutant General Herring and its Albuquerque friends in the national guard armory tonight. The adjutant general and a number of local men will make some very brief speeches and thereafter there will be something doing all evening.

Captain Himes expects to recruit his company to above the regimental strength by tonight and the adjutant general will have something to say about the future of the national guard in New Mexico. The entertainment program promises to be a dandy.

### EAT CABBAGE, FISH SAUSAGE, NEW BREAD

No Indigestion, Gas, Sourness or Upset Stomach If You'll Take "Pape's Diapiesin"—Try This!

Do some foods you eat hit back—taste good, but work badly; ferment into stubborn lumps and cause a sick, sour, gassy stomach? Now, Mr. or Mrs. Dyspeptic, get this down: Pape's Diapiesin dissolves everything, leaving nothing to sour and upset you. There never was anything so safely quick, so certainly effective. No difference how badly your stomach is disordered you will get happy relief in five minutes, but what pleases you most is that it strengthens and regulates your stomach as you can eat your favorite foods without fear.

Most remedies give you relief sometimes—they are slow, but not sure. "Pape's Diapiesin" is quick, positive and puts your stomach in a healthy condition so the misery won't come back.

You feel differently as soon as "Pape's Diapiesin" comes in contact with the stomach—distress just vanishes—your stomach gets sweet, no gases, no belching, no eructation or undigested food, your head clears and you feel fine.

Go now, make the best investment you ever made, by getting a large fifty-cent case of Pape's Diapiesin from and drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach disorder.

### SANITORIUM COMMITTEE READY TO REPORT

The committee appointed to bring the advantages of this city to the attention of the Moose officials who are seeking a site for the two-million-

dollar sanitarium the order is to erect, will meet at the Commercial club tonight. Most of the data on Albuquerque and the surrounding country is already at hand, and will be turned over to the committee by Secretary Thomas Egan, of the Commercial club.

In spite of the strong efforts other communities are making to secure the sanitarium, and the confident air of El Paso and the lower Rio Grande valley boosters especially, the local men feel that they have reason to believe their efforts to secure the sanitarium for this city will be successful. C. O. Chapman is head of the committee.

### TODAY IN CONGRESS

The Senate. Met at noon.

Woman suffrage constitutional amendment awaiting a vote.

The House.

Suffragists and anti-suffragists had a hearing before the judiciary committee.

Lands committee considered bills for leasing of public lands for grazing.

The \$18,000,000 agricultural bill was taken up for debate. Commerce committee heard Alfred P. Thoburn endorse the principle of federal control of railway capitalization.

Hearing began before the rules committee on Representative Mannheim's charges that the Chicago, Duluth and Minneapolis boards of trade are operating in violation of the Sherman law.

Chairman Doremus of the Democratic congressional committee denied that the corrupt practices act had been violated by receiving Democratic congressmen for the last campaign.

French Elections April 26. Paris, March 2.—The French council today decided on Sunday, April 26, as the day for the general parliamentary elections in France.
